

Priefert®

POLYETHYLENE STOCK TANKS

Durable polyethylene stock tanks are designed to handle the rough environment associated with watering livestock, such as cattle, horses, sheep, and goats. Priefert Stock Tanks are available in 150 gallon and 300 gallon options. Our tubs include a drain plug for convenient emptying. Rugged enough to handle temperature swings and the wear and tear that come with pasture life, these stock tanks offer long-lasting durability when it comes to watering your animals.
